**The Stadium.
Our logo,
Your home.**

our roots

Sport is rich in emotions. Visit any stadium, and you will encounter them all: joy, sadness, anxiety, anger, surprise, and pure euphoria. This place, where all emotions are played out, brings us together in a universal passion for sport – all sports. The stadium, the iconic place where athletes become legends, is at the origin of Stanno's logo, both as inspiration and as an emblem.

The Stanno logo embodies this vibrant passion that resonates in every stadium: the courage of athletes, their determination to push their limits, each striving to reach their 'moment of glory'. Our logo symbolizes all of this – all those moments of excellence lived and celebrated in stadiums around the world.

The colour orange evokes optimism, commitment, and combative spirit. Qualities that every athlete carries within them. Optimism fuels creativity, commitment determines focus, and combative spirit inspires endurance. These elements form the foundation of our brand. By developing complete collections and creating specialized products for specific athlete groups, our goal is to support effort and contribute to excellence.

Our mission statement:

Better Club, Better Team, Better Player

Stanno has been the most reliable partner for sports clubs for years. Originally a supplier of goalkeeper gloves, shin guards, and socks, today, Stanno is a full-service teamwear provider for more than 3,000 clubs across Europe.

BETTER CLUB: Stanno represents unity, inclusivity, and pride. A sports club brings individuals together and connects them; players, volunteers, and supporters – together they form the club. Stanno supports you in managing and developing your club by offering reliable, simplified, and tailored service.

BETTER TEAM: By providing quality products, we aim to ensure your teams have the necessary tools to train, have fun, and work together toward progress and success.

BETTER PLAYER: Thanks to our efforts in designing sports clothing and equipment, your players can fully focus on improving their game and performance.

**We offer the best service to all clubs
and Retail Partners.**

Our strengths

A Passion for Teamwear

At Stanno, where passion and team spirit meet, we are proud to partner with sports clubs across Europe and the world. We understand that a team is much more than just a group of players on the field – it is a family, a unit, and a source of pride for the community. And nothing reflects this identity better than the club's colors.

From our modern warehouse in The Netherlands, we deliver directly from our stock. No matter the size of the club placing the order – whether it's a few jerseys or a full range for multiple teams – we treat each delivery with the same care, attention, and speed.

When a team walks on to the pitch wearing our kit and the supporters in the stands proudly wear their club's colors, we know we are part of something big. These are not just team kits – they are symbols of solidarity, combative spirit, and pride.

We do not just deliver clothing and equipment. We deliver pride in the colors of every club.

Sportswear with an Impact

Together for a Sustainable Future

In a world where every choice matters, we believe that respecting the environment is no longer an option, but a responsibility. As a partner to sports clubs, we aim to contribute to a future where sport is not only about winning, but also about making responsible ecological choices.

Our approach begins at the source — selecting materials that are not only strong (strength reduces ecological impact) and comfortable, but also planet-friendly. Think recycled fabrics, recycled packaging, and even carbon-neutral shipping.

Thus, we create sportswear that lasts longer and has a reduced environmental impact.

Sustainability doesn't stop at production. It's a mindset, a collective effort. That's why we encourage sports clubs to ask: **Does your club also make sustainable choices when purchasing new gear?** By choosing our sustainable collections, your club not only chooses quality but also takes a step toward a better world.

We continue to innovate with pride, alongside clubs who understand that sustainability and sport can go hand in hand. Wearing your club's jersey means more than just team spirit — it can be a symbol of care for the world around us.

**Together, we move forward.
And you?
Are you ready to join us?**

Partner programme

Deventrade, the home of Stanno has always had grassroots sport at its core. Our company objective is to supply high quality product, competitively priced, well stocked and delivered quickly. Now more than ever, clubs need help purchasing kit and equipment to enable them to continue to survive.

We are proud to introduce our **Partner Programme**. The key objectives are to reward the clubs who spend money on Stanno product by offering them extra discount through our nationwide dealer network. This is done by passing on additional discount to our clubs through our retail partners.

Clubs can choose any product from our comprehensive Teamsport collection or choose your own specially designed kit. With Special Design you can create a kit along with our in-house designers that's unique to your club. Even the socks can be produced in the clubs colours, with a knitted club logo!

Ask your local Stanno retailer about our partner programme, and the considerable benefits being a Stanno partner club brings.

STANNO

Special Design

Create a kit that you can take pride in!

Together we can insert that team spirit, identity and local pride together in a unique club kit. With Special Design, the possibilities are endless. From striking shirts to stylish shorts and socks, completely in line with the look of your club.

Quality meets character

Our products combine the high Stanno quality and perfect fit you can rely on, with a design that reflects your club in bespoke detail. Think unique patterns in your club's colours, everything to make your team play with style.

Our promise: Function. Shape. Appearance.

We develop every product with an eye for detail, according to our own Stanno design philosophy:

1. **Function:** Performance and comfort always come first.
2. **Shape:** Stylish and modern, down to the smallest details.
3. **Appearance:** Your club identity, translated into a powerful design.

Everything is developed under our own direction in our head office in Deventer, so that we can always guarantee the highest standard.

"A CLUB WANTS ITS OWN UNIQUE IDENTITY. THE GREAT THING ABOUT OUR WORK IS THAT WE CAN CAPTURE THE UNCONDITIONAL PASSION FROM THE CLUB IN A KIT."

**From
dream
to
reality...**

**your
club kit
is waiting
for you!**

Your club. Your pride. Your kit.

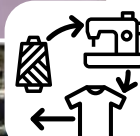

Sketch and Colour

Design and colour all starts with a dream. Together with your club, we will work to design a kit that strengthens the team spirit, conveys the club identity and lets the local pride shine! In conjunction with your retailer, we listen to your wishes and ideas. This creates a first design, completely based on your club colours, logo and unique appearance. This is the start of a design that really suits you. With your feedback, we refine into a design that is as unique as your club.

Design and materials

Now the magic really begins. Once the design is finalised, we will choose the materials and finishes that perfectly match your needs. Think high-quality fabrics that provide ultimate comfort and top performance, combined with touches that finish your kits down to the last detail. We use our fixed, proven patterns and sizing, so you can be sure that everything fits perfectly. Then the sample process begins: your design comes to life! And only when everyone is 100% satisfied do we start production.

Tailor-Made Production

We only work with the best, specialised suppliers to deliver the quality you can count on and expect from Stanno. Based on the approved sample, we determine exactly where and how your kits will be produced. Every detail is executed with care, so that the end result is not only functional, but also perfectly reflects the club identity.

Result. Your unique kit is ready!

As soon as production is ready and arrives to us, we carry out strict internal quality control. Every detail is checked to ensure that the kit fully meets your expectations. After approval, the kits are carefully packaged and delivered to your selected retailer. Now is the moment everyone is looking forward to: you are all set to enter the field in style and with pride!

The Stanno family

Stanno is a proud partner of passionate, unique, and inspiring sports clubs, teams, and athletes who give their best in every match. Together, they form the close-knit Stanno family – where solidarity, ambition, endurance, and passion are at the heart of everything.

With us, you are not just a customer number, but a valued partner. We treat each club as an essential partner who deserves to be seen and heard. In our family, there's room for all those who believe in the power of sport and the importance of winning together.

Will you join us?

Goalkeeper Sponsors

Stanno launched the first collection of goalkeeper gloves back in 1990. Making innovative use of foam and finger protection, the brand set a new standard for goalkeepers. Since then, every new collection is developed in close collaboration with goalkeepers at the highest level. This way, technology and experience are united in every glove for a maximum result.

Stanno works closely with goalkeepers and clubs at the highest level. The expertise of these professionals is of major value in the development of new goalkeeper gloves and collections.

For goalkeepers, by goalkeepers.

Over 30 years	Experience developing goalkeeper gloves
No. 1	Grip, fit and value for money
Professional Quality	Developed by and for goalkeepers

© PRO SHOTS / Jasper Ruhe

Types of Foam

Properties

					
		Grip dry weather	Grip wet weather	Cushioning	Abrasion resistance
 HYPER FOAM PLUS	HYPER FOAM PLUS is an ultra-soft and even thicker foam than Hyper Foam. This ensures an even better grip in both dry and wet weather conditions. Its absorbency has been considerably improved, which ensures optimum impact reduction and even better ball control. An additional advantage of Hyper Foam Plus is the improved, longer lifespan.	★★★★★	★★★★★	★★★★★	★★★★☆
 HYPER FOAM	HYPER FOAM ensures optimal grip in both dry and wet weather conditions, thanks to the foam's absorbent properties. Hyper Foam guarantees optimal comfort and increases ball control thanks to its excellent impact reduction.	★★★★☆	★★★★☆	★★★★☆	★★★★☆
 AQUA FOAM	AQUA FOAM offers optimal grip in wet conditions. The soft and more open foam structure takes up water, which – in comparison to other types of foam – provides a 25% better grip. Additionally the Aqua Foam gloves contain an extra shock-absorbing function to reduce the impact of hard shots. The changing needs of professional keepers require that the characteristics and quality of the foam continually develop.	★★★★☆	★★★★★	★★★★☆	★★★★☆
 SUPER SOFT PROFI FOAM	SUPER SOFT PROFI FOAM has excellent properties for grip in both dry and wet conditions, and it also offers excellent cushioning. The use of the latest materials ensures durability and optimal comfort.	★★★★☆	★★★★☆	★★★★☆	★★★★☆
 SOFT FOAM	SOFT FOAM provides a reliable grip and excellent cushioning. Soft Foam ensures maximum ball control and optimal comfort.	★★★★☆	★★★★☆	★★★★☆	★★★★☆
		Grip during dry weather conditions	Grip during wet weather conditions	Cushioning	Abrasion resistance

One Piece Fit Design

The supple, lightweight material of the wrist strap runs over the upper hand and provides an even better connection around the skin. The OPF design also results in an extra light glove.

Finger protection

Firm, flexible strips on the upper side of the fingers provide good protection against injuries in contact with the ball. The flexibility of the strips guarantees that suppleness remains guaranteed while throwing, punching and catching the ball.

The adhesive properties of the foam are decisive for an optimal grip and the best performance. The weather is a big influence on the properties and performances of the foam material. Playing during dry weather requires specific foam components for optimal results.

Moisture, rain and wet conditions affect the grip and require additional components for a better grip. A softer and more open foam structure absorbs the water and is very suitable for wet weather conditions.

As well as grip, cushioning is an important factor in determining the most suitable goalkeeper gloves. The softer and thicker the foam, the better the impact of the ball can be absorbed. Also the thickness of the basic material of the gloves determines the amount of cushioning.

Foam is a very soft material that needs special treatment. Regular ball contact leads to wear and tear of the foam. The degree of wear is determined by the surface structure and the density of the foam material. A more coarse and closed foam structure will lead to less wear.

Goalkeepers gloves

One of the main features of goalkeeper gloves is the way in which the gloves are stitched. This determines the ball control, grip and comfort.

Rollfinger-model

With the rollfinger system, the finger is completely surrounded by foam, without stitching. The magnification of the grip surface that is created in this way, allows for optimum grip on the ball.

Ultimate Grip JR III

Hardground JR VI

Rollfinger negative

In a negative-stitched rollfinger model, the latex foam is rolled around the inside of the finger. This increases the foam surface area and therefore grip. The stitching seams are on the inside, making the glove fit tighter around the fingers. This increases ball control.

Ultimate Grip IV

Flathand positive

In a flathand glove, with positive stitching, the stitched seams are applied to the outside of the fingers, increasing the foam surface and creating a larger area for catching the ball.

Volare Match JR III

Thunder JR VII

Volare Match III

Flathand negative

In a flathand glove, with negative stitching, the stitched seams are applied to the inner side of the fingers, making the glove fit more tightly around the fingers, and increasing the control on the ball.

Thunder VII

Hybrid negative

The advantage of the rollfinger system and stitching on the inside of the fingers combined. The glove fits tighter around the fingers because of the stitching on the inside and is also surrounded by foam. The surface area on the inside of the hand is further increased, this makes the surface to catch the ball even greater.

Don't know exactly what size you are?

Use our size charts and measurement instructions to determine the size that fits you best.

Our size charts indicate which clothing size best suits your body proportions. We have a wide range of sizes that may vary by garment, fabric or fit, therefore garments may vary slightly from the indicated size. Please note that our size charts are guides and product varies depending upon style. We recommend that sizes are tried via your local retailer before any orders are placed.

We use the following references:

- **Pro Fit** - Slim fitting design. Advised to size up if looser fit required
- **Semi Pro Fit** - Not as fitted as Pro but still based on a slim fitting design.
- **Regular Fit** - Standard fitting not slim fitting design.

HOW TO MEASURE CORRECTLY

1	Body length	Measure from the base of your feet to the top of your head.
2	Chest	Measure at the widest part of your chest.
3	Waist	Measure at the narrowest part of your waist.
4	Hips	Measure at the widest part of your hips.
5	Calf	Measure the widest part of your calf.
6	Foot length	Measure from the tip of your toes to the back of your heel.

SIZES ARE MEASURED IN CENTIMETERS.

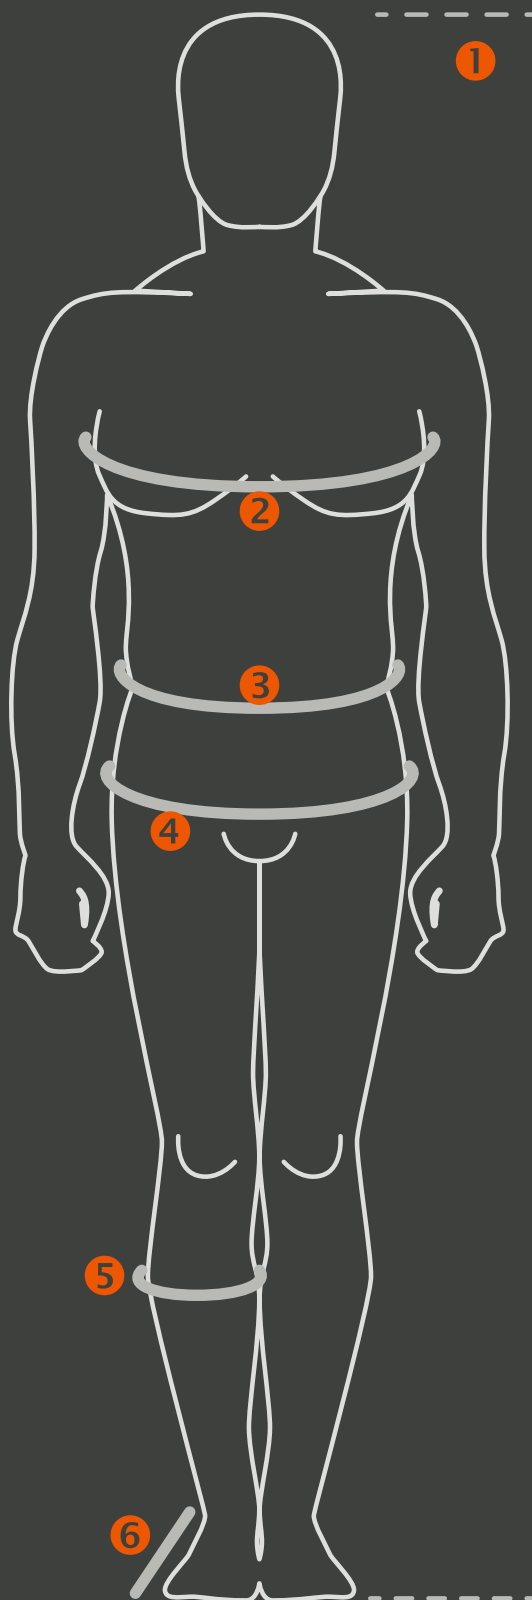

On photographic reproduction and print some colour changes may occur between pictures and original products. We reserve the right to make product/technical changes (in design, colour, function and material), which we feel, will make for improvement of the product. We will not accept any responsibility for printing errors in the catalogue! All Stanno products are suitable for printing, front or back.

Garment care: Stanno products are made to the highest standards and are subject to strict quality control procedures. Garments however can discolour due to substances such as mud and grass, liniment or oil, and of course perspiration, all of which may not be fully removable by washing. The extent of discolouration can be greatly reduced by following a few simple procedures. Soaking and/or washing of the garment in water and detergent as soon as possible after use can reduce discolouration, using at least the same volume of water as the garment being treated. Always follow detergent manufacturers instructions, especially those intended to tackle heavy stains and avoid products containing bleach. Stanno International cannot accept any liability for discolouration or damage to garments resulting from staining caused by elements foreign to the materials used in manufacture.

All catalogue prices are recommended prices inclusive of VAT. The copying of products, in whatever form that may take, is forbidden without the prior written consent of Stanno International. Stanno International reserves the right to modify product specifications and prices at any given time.

Please note all time lines listed are purely for guidance and we reserve the right to make changes to these. It also applies that in the last year of the stated period, we can no longer guarantee complete size runs.
