ONE STOP SHOP

A passion for Teamwear

At Stanno, where passion and team spirit meet, we are proud to partner with sports clubs across Europe and the world. We understand that a team is much more than just a group of players on the field – it is a family, a unit, and a source of pride for the community. And nothing reflects this identity better than the club's colors.

From our modern warehouse in The Netherlands, we deliver directly from our stock. No matter the size of the club placing the order – whether it's a few jerseys or a full range for multiple teams – we treat each delivery with the same care, attention, and speed.

When a team walks on to the pitch wearing our kit and the supporters in the stands proudly wear their club's colors, we know we are part of something big. These are not just team kits – they are symbols of solidarity, combative spirit, and pride.

We do not just deliver clothing and equipment. We deliver pride in the colors of every club.

Together for a Sustainable Future

RECYCLED FABRICS

CARBON-NEUTRAL SHIPPING

RECYCLED PACKAGING

REUSE OF TEXTILES

LONGEST PLC ON THE MARKET

In a world where every choice matters, we believe that respecting the environment is no longer an option, but a responsibility. As a partner to sports clubs, we aim to contribute to a future where sport is not only about winning, but also about making responsible ecological choices.

Our approach begins at the source – selecting materials that are not only strong (strength reduces ecological impact) and comfortable, but also planet-friendly. Think recycled fabrics, recycled packaging, and even carbon-neutral shipping.

Thus, we create sportswear that lasts longer and has a reduced environmental impact.

Sustainability is also reflected in our PLCs. We use the longest PLC on the market, minimising unnecessary interim replacements to maintain unity. Together with associations that understand that sustainability and sport can go hand in hand, we are proud to continue innovating.

We continue to innovate with pride, alongside clubs who understand that sustainability and sport can go hand in hand. Wearing your club's jersey means more than just team spirit – it can be a symbol of care for the world around us.

**Together, we move forward.
And you?
Are you ready to join us?**

**Our Stadio and Bolt collections
are made entirely
from 100% recycled
polyester!**

Partner Programme

Deventrade, the home of Stanno has always had grassroots sport at its core. Our company objective is to supply high quality product, competitively priced, well stocked and delivered quickly. Now more than ever, clubs need help purchasing kit and equipment to enable them to continue to survive.

We are proud to introduce our **Partner Programme**. The key objectives are to reward the clubs who spend money on Stanno product by offering them extra discount through our nationwide dealer network. This is done by passing on additional discount to our clubs through our retail partners.

Clubs can choose any product from our comprehensive Teamsport collection or choose your own specially designed kit. With Special Design you can create a kit along with our in-house designers that's unique to your club. Even the socks can be produced in the clubs colours, with a knitted club logo!

Ask your local Stanno retailer about our partner programme, and the considerable benefits being a Stanno partner club brings.

For more information and conditions for our Partner Programme please scan the QRCode or send an e-mail to support.uk@stanno.com.

**Create a kit
that you can take pride in!**

Special Design

Together we can insert that team spirit, identity and local pride together in a unique club kit. With Special Design, the possibilities are endless. From striking shirts to stylish shorts and socks, completely in line with the look of your club.

Quality meets character

Our products combine the high Stanno quality and perfect fit you can rely on, with a design that reflects your club in bespoke detail. Think unique patterns in your club's colours, everything to make your team play with style.

Our promise: Function. Shape. Appearance .

We develop every product with an eye for detail, according to our own Stanno design philosophy:

1. **Function:** Performance and comfort always come first.
2. **Shape:** Stylish and modern, down to the smallest details.
3. **Appearance:** Your club identity, translated into a powerful design.

Everything is developed under our own direction in our head office in Deventer, so that we can always guarantee the highest standard.

"A CLUB WANTS ITS OWN UNIQUE IDENTITY. THE GREAT THING ABOUT OUR WORK IS THAT WE CAN CAPTURE THE UNCONDITIONAL PASSION FROM THE CLUB IN A KIT."

**From dream
to reality...**

**your club kit
is waiting for you!**

Special Design

Your club. Your pride. Your kit.

SKETCH AND COLOUR

DESIGN AND MATERIALS

PRODUCTION

RESULT

Sketch and Colour

Design and colour all starts with a dream. Together with your club, we will work to design a kit that strengthens the team spirit, conveys the club identity and lets the local pride shine! In conjunction with your retailer, we listen to your wishes and ideas. This creates a first design, completely based on your club colours, logo and unique appearance. This is the start of a design that really suits you. With your feedback, we refine into a design that is as unique as your club.

Design and materials

Now the magic really begins. Once the design is finalised, we will choose the materials and finishes that perfectly match your needs. Think high-quality fabrics that provide ultimate comfort and top performance, combined with touches that finish your kits down to the last detail. We use our fixed, proven patterns and sizing, so you can be sure that everything fits perfectly. Then the sample process begins: your design comes to life! And only when everyone is 100% satisfied do we start production.

Tailor-Made Production

We only work with the best, specialised suppliers to deliver the quality you can count on and expect from Stanno. Based on the approved sample, we determine exactly where and how your kits will be produced. Every detail is executed with care, so that the end result is not only functional, but also perfectly reflects the club identity.

Result. Your unique kit is ready!

As soon as production is ready and arrives to us, we carry out strict internal quality control. Every detail is checked to ensure that the kit fully meets your expectations. After approval, the kits are carefully packaged and delivered to your selected retailer.. Now is the moment everyone is looking forward to: you are all set to enter the field in style and with pride!

The Stanno family

Stanno is a proud partner of passionate, unique, and inspiring sports clubs, teams, and athletes who give their best in every match. Together, they form the close-knit Stanno family – where solidarity, ambition, endurance, and passion are at the heart of everything.

With us, you are not just a customer number, but a valued partner. We treat each club as an essential partner who deserves to be seen and heard. In our family, there's room for all those who believe in the power of sport and the importance of winning together.

Will you join us?

Shirts

Our shirts are designed by sportspeople for sportspeople.

**Many shirts are made from 100% recycled polyester,
but all with having our unique Stanno style and quality
woven into each one. Our shirts are designed to make you
feel and look unbeatable.**

Referees

A referee plays an essential role in the sport and at the club. Often voluntary, always important. With our referee collection, you can ensure a uniform, professional look in any colour you need. A small investment that pays off big: clarity, respect and calm on the pitch.

Baselayers

A baselayer that does what it's supposed to do:

provide warmth, comfort and moisture management when the game demands it. Made from synthetic fibres that wick away sweat quickly and available in multiple colours.

A basic piece for every athlete.

Collections

Every club has its own story. Our team lines help to make that visible. From Stadio, with its high-quality look, to Bolt, with its sporty and modern look.

All designed and manufactured with quality and consistency in mind. All team lines are available in a wide range of colours.

The team line gives each club its own identity and, at the same time, the team spirit and cohesion that athletes need on the field to perform.

Plaza

Collection

Plaza gives your team that little bit of extra flair. Comfortable, stylish and ideal for on the go, in the canteen or on the way to the gym. It's no coincidence that it's the presentation line for clubs such as Go Ahead Eagles. This is a line that shows what you stand for.

Functionals

Collection

The Stanno Functionals collection consists of stylish and functional training items, perfect for sports like fitness, crossfit, or running.

Whatever the season, the different items in this collection offer a variety of technical combinations to help you face almost any challenge!

These items are made from high-quality technical materials and pair perfectly with our other collections.

Goalkeeper sponsorships

Stanno launched the first collection of goalkeeper gloves back in 1990. Making innovative use of foam and finger protection, the brand set a new standard for goalkeepers. Since then, every new collection is developed in close collaboration with goalkeepers at the highest level. This way, technology and experience are united in every glove for a maximum result.

Stanno works closely with goalkeepers and clubs at the highest level. The expertise of these professionals is of major value in the development of new goalkeeper gloves and collections.

STANNO

For goalkeepers, by goalkeepers.

Over 30 years

Foam information

Types of

Properties

Foam	 Grip in dry weather	 Grip in wet weather	 Cushioning	 Abrasion resistance
	Grip in dry weather	Grip in wet weather	Cushioning	Abrasion resistance
 HYPER FOAM PLUS is an ultra-soft and even thicker foam than Hyper Foam. This ensures an even better grip in both dry and wet weather conditions. Its absorbency has been considerably improved, which ensures optimum impact reduction and even better ball control. An additional advantage of Hyper Foam Plus is the improved, longer lifespan.	★★★★★	★★★★★	★★★★★	★★★★★☆
 HYPER CONTROL FOAM is one of the most adhesive, thick latex types in the range. The foam structure allows the ball to stick to the glove when catching, ensuring a very strong grip, even in wet conditions. The high absorbency provides optimal impact reduction for stable control and accurate ball control. Remove the plastic film before first use!*	★★★★★	★★★★★☆	★★★★★☆	★★★★☆☆
<small>*See the instructions on our website for the best results.</small>				
 SUPER SOFT PROFI FOAM has excellent properties for grip in both dry and wet conditions, and it also offers excellent cushioning. The use of the latest materials ensures durability and optimal comfort.	★★★★★☆	★★★★☆☆	★★★★☆☆	★★★★☆☆
 SOFT FOAM provides a reliable grip and excellent cushioning. Soft Foam ensures maximum ball control and optimal comfort.	★★★★★☆	★★★★☆☆	★★★★☆☆	★★★★☆☆
	Grip in dry weather	Grip in wet weather	Cushioning	Abrasion resistance
 One Piece Fit Design The supple, lightweight material of the upper hand fits snugly and feels like a second skin. This eliminates the need for an adjustable wrist strap, as the glove naturally provides a stable, snug fit.	The adhesive properties of the foam are decisive for an optimal grip and the best performance. The weather is a big influence on the properties and performances of the foam material. Playing during dry weather requires specific foam components for optimal results.	Moisture, rain and wet conditions affect the grip and require additional components for a better grip. A softer and more open foam structure absorbs the water and is very suitable for wet weather conditions.	As well as grip, cushioning is an important factor in determining the most suitable goalkeeper gloves. The softer and thicker the foam, the better the impact of the ball can be absorbed. Also the thickness of the basic material of the gloves determines the amount of cushioning.	Foam is a very soft material that needs special treatment. Regular ball contact leads to wear and tear of the foam. The degree of wear is determined by the surface structure and the density of the foam material. A more coarse and closed foam structure will lead to less wear.
 Finger protection Firm, flexible strips on the upper side of the fingers provide good protection against injuries in contact with the ball. The flexibility of the strips guarantees that suppleness remains guaranteed while throwing, punching and catching the ball.				

Model information

One of the main features of goalkeeper gloves is the way in which the gloves are stitched. This determines the ball control, grip and comfort.

 ROLLFINGER		Rollfinger-model With the rollfinger system, the finger is completely surrounded by foam, without stitching. The magnification of the grip surface that is created in this way, allows for optimum grip on the ball.				
 ROLLFINGER NEGATIVE		Rollfinger negative In a negative-stitched rollfinger model, the latex foam is rolled around the inside of the finger. This increases the foam surface area and therefore grip. The stitching seams are on the inside, making the glove fit tighter around the fingers. This increases ball control.				
 FLATHAND POSITIVE		Flathand positive In a flathand glove, with positive stitching, the stitched seams are applied to the outside of the fingers, increasing the foam surface and creating a larger area for catching the ball.				
 FLATHAND NEGATIVE		Flathand negative In a flathand glove, with negative stitching, the stitched seams are applied to the inner side of the fingers, making the glove fit more tightly around the fingers, and increasing the control on the ball.				
 RFH NEGATIVE		Hybrid negative The advantage of the rollfinger system and stitching on the inside of the fingers combined. The glove fits tighter around the fingers because of the stitching on the inside and is also surrounded by foam. The surface area on the inside of the hand is further increased, this makes the surface to catch the ball even greater.

Please note that our size charts are guides and product varies depending upon style. We recommend that sizes are tried via your local retailer before any orders are placed.

← Size Charts

Don't know exactly what size you are?

Use our size charts and measurement instructions to determine the size that fits you best.

Our size charts indicate which clothing size best suits your body proportions. We have a wide range of sizes that may vary by garment, fabric or fit, therefore garments may vary slightly from the indicated size.

Please note that our size charts are guides and product varies depending upon style. We recommend that sizes are tried via your local retailer before any orders are placed.

We use the following references:

- **Pro Fit** Slim fitting design. Advised to size up if looser fit required
- **Semi Pro Fit** Not as fitted as Pro but still based on a slim fitting design.
- **Regular Fit** Standard fitting not slim fitting design.

How to Measure Correctly

1	Body length	Measure from the base of your feet to the top of your head.
2	Chest	Measure at the widest part of your chest.
3	Waist	Measure at the narrowest part of your waist.
4	Hips	Measure at the widest part of your hips.
5	Calf	Measure the widest part of your calf.
6	Foot length	Measure from the tip of your toes to the back of your heel.

SIZES ARE MEASURED IN CENTIMETERS.

On photographic reproduction and print some colour changes may occur between pictures and original products. We reserve the right to make product/technical changes (in design, colour, function and material), which we feel, will make for improvement of the product. We will not accept any responsibility for printing errors in the catalogue! All Stanno products are suitable for printing, front or back.

Garment care: Stanno products are made to the highest standards and are subject to strict quality control procedures. Garments however can discolour due to substances such as mud and grass, liniment or oil, and of course perspiration, all of which may not be fully removable by washing. The extent of discolouration can be greatly reduced by following a few simple procedures. Soaking and/or washing of the garment in water and detergent as soon as possible after use can reduce discolouration, using at least the same volume of water as the garment being treated. Always follow detergent manufacturers instructions, especially those intended to tackle heavy stains and avoid products containing bleach. Stanno International cannot accept any liability for discolouration or damage to garments resulting from staining caused by elements foreign to the materials used in manufacture.

All catalogue prices are recommended prices inclusive of VAT. The copying of products, in whatever form that may take, is forbidden without the prior written consent of Stanno International. Stanno International reserves the right to modify product specifications and prices at any given time.

Please note all time lines listed are purely for guidance and we reserve the right to make changes to these. It also applies that in the last year of the stated period, we can no longer guarantee complete size runs.

Product Life Cycle

For many items, we display a PLC (Product Life Cycle), which indicates how long this product will be available. Stanno distinguishes itself by offering the longest PLCs on the market, which provides the club with financial and sustainability benefits, as it limits unnecessary replacements due to discontinued lines.

Our ambition is to offer very high availability throughout most of the PLC.
